Representative Curtis Hanson
1007 East Grand Avenue
Des Moines, Iowa 50319

Representative Hanson,

We recently read statements that you made in the news concerning the distribution of flyers in Iowa by the Traditionalist American Knights of the Ku Klux Klan, you were quoted as saying "I am appalled that some sort of hate organization is trying to work its way into Iowa and this is not a good thing for the community". Mr. Hansen, our question to you is when did the appearance of a Christian, law abiding, organization steeped in patriotism become a bad thing for any community? The elements of our organizational beliefs are centered on our faith in Jesus Christ as our criterion of character and our belief in pure Americanism. The slanderous attacks made against us by many liberal and socialist organizations are full of untruths which either by ignorance or design purposely diverts attention away from the substance and truth of our message by proclaiming it as hate speech. I can personally tell you that the TAK is not a hate group, we do promote the advancement of the white race much like the NAACP promotes the advancement of the black race. We speak out against government corruption, and the attacks on our nations Christianity. We watch our neighborhoods, local school curriculums, and protect children from illegal drug use and potential sexual predators by reporting all suspicious activity to local law enforcement. The next time you share your concerns with your fellow lawmakers please have the courage and conviction to share this information with them as well.

Sincerely,

D.L.W

Imperial Kaltrop / King Kleagle
